Subject: ADVANCE NOTIFICATION - Price/An analysis of cumulative risks based on biomonitoring data for six phthalates using the Maximum Cumulative Ratio
Attachments: Phthalate Cumulative Risk FactSheet.docx; Reyes_EHP_Phthalates_STICs_version.docx

Tina,

Hi. Attached is an ADVANCE NOTIFICATION product, presumably of HHRA origin? I recommend that it be forwarded to Programs under the ORD Advance Notification policy, likely to OCSPP, OLEM, OW, and OCHP.

The goal of this pre-notification is to ensure there are no policy statements contained within the product or factual errors regarding programs and to avoid surprises of published data relevant to the activities of our program and regional partners.

Thanks

Bruce Rodan
Associate Director for Science
EPA Office of Research and Development

Subject: High Profile Product - Price/An analysis of cumulative risks based on biomonitoring data for six phthalates using the Maximum Cumulative Ratio

Good Morning Bruce,

For Advanced Notification review, attached is a manuscript on phthalates that is in process at NERL. The initial author is an ORISE at NCEA (Reyes) but NERL (Price – corresponding author) is taking the lead on clearing.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Reasons for Flagging –

- **Ex. 5 Deliberative Process (DP)**

Program partners: Draft versions of this manuscript were shared with NCEA (Jennifer Richmond-Bryant). Brief overviews were provided to NCEA staff. It has not been shared with any program office.

Also, attached is a factsheet providing additional context.

Let me know if you have questions.

Thanks, Annette.
